# Content Writing

## What Is Content Writing?

Content writing is the process of planning, writing, and editing web content, typically for digital marketing purposes with the aim of solving a problem for a specific audience. By solving the audience's challenges, you create value and importance for the target audience thus establishing trust; a necessity in building a brand. It can include writing blog posts and articles, scripts for videos and podcasts, as well as content for specific platforms, such as tweetstorms on Twitter or text posts on Reddit.
